& LAW

BUSINESS & LAW

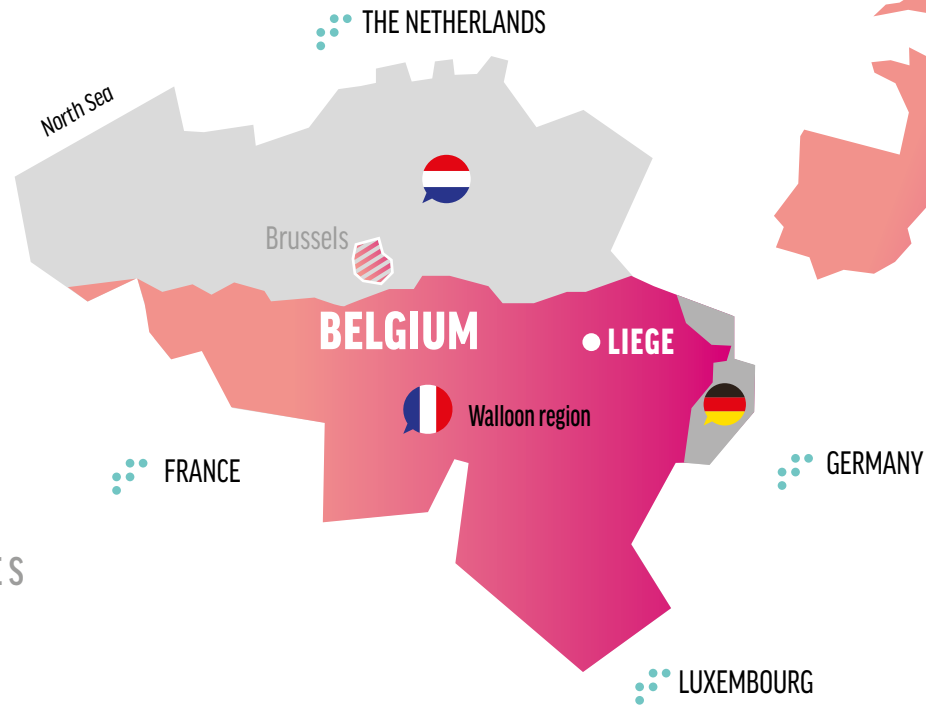

DESTINATION

HELMo University College in the Walloon region

- 8400 STUDENTS
- 5 DEPARTMENTS
- 900 STAFF MEMBERS
- +40 BACHELOR, MASTER DEGREES AND SPECIALIZATIONS
- 1800 GRADUATES A YEAR
- 11 INSTITUTES AND 3 CAMPUSES in Liège, Loncin, Huy, Theux and Verviers

Studying at HELMo is...

Attending programmes of high quality, which allow students to **be creative and active** during their studies

Working closely with the **local community** and with a **very large network of organizations** willing to help its students meet the requirements of the job market

Having the possibility to participate in **double or triple degree programmes**

Benefiting from **a student-centered teaching methodology**: disciplines are practical and open to the labour market. The teaching methods used are lectures, discussions in small groups of students, internships, a final assignment... In the Master degrees, the used methods are inductive: from case analysis to theoretical justification; an alternation of theory – practice, research missions with a strong link to industries and universities, optional course units and a final assignment for students in the last study year

Attending **degree programmes open to the world**: HELMo has signed more than 100 bilateral agreements with institutions of Higher Education in Europe and around the world

Being in an institution which is a **member of thematic networks** (Businet, Comenius Association, EAIE, EASSW, ERACON, FESET, NIBS)

Being allowed to attend courses and lectures in **other institutions** of higher Education

Doing an internship abroad

Life at HELMO is...

Participating in **research and innovation projects**

Benefiting from **pedagogical tools and infrastructures, continuously being improved**: new campuses, computer rooms, Wi-fi, e-learning

Being accompanied by a **students' department** and/or an **Educational and social assistance** (workshops, stress management, tutoring...)

Joining a students' association, parties, cultural events, sports associations and **a lot of projects** in the different departments

Having support from an **international office** for all Erasmus exchanges, internships abroad, intercultural meetings, ...

Always **Lifelong learning**

DESTINATION

••• LIEGE

Coming to HELMo means discovering a very rich and diversified region close to Germany, the Netherlands, France and Luxemburg. Liège has long been described as being one of three sisters, together with Aachen (in Germany) and Maastricht (in the Netherlands).

Studying in Liège means also discovering a city with a rich historical, cultural and industrial past. It is the largest city of the French-speaking community in Belgium and is the economic capital of the Walloon Region. Called "la Cité Ardente" with reference to the independent spirit of its inhabitants, Liège has a lot of museums and prestigious cultural institutions like the Orchestre Philharmonique Royal de Liège, The Opéra Royal de Wallonie or the new Theatre, the Reflektor for music concerts...

As a student town, Liège has an important social life and is crawling with pubs, cinemas, restaurants, sports centres, etc...

From being an old steel-manufacturing-based town, it has successfully undergone a transition into developing high-technology industries and services: with some significant development poles in sectors such as space, biotechnology, transport and logistics...

But the most significant point is that Liège is a warm open-minded town, thanks to its geographical position mixing French, Flemish, Dutch and German cultures.

THE INTERNATIONAL RELATIONS OFFICE AT HELMO

The main International Relations office is managed by :

Julie Guiot
(Head of the department)
j.guiot@helmo.be
+32 4 200 61 07

Manon Habay
(Incoming and outgoing students officer)
m.habay@helmo.be
+32 4 220 16 23

We work in close collaboration with the international coordinators from the different study programmes.

One of the most important aims of the international office is to increase the number of exchange students (outgoing and incoming).

Therefore, incoming students are very welcome to HELMO:

Compulsory welcome days at the beginning of each semester (in September and in January) – social, cultural, linguistic and integration activities are offered during these days. Students usually meet the international coordinator of their study programme, they also have the opportunity to discover the department and to meet other Erasmus students. They have to attend a conference about the Belgian Culture and habits.

A **module called "Belgian Culture and Heritage" (BCH)**: It gives incoming students the opportunity to visit Belgian towns, to taste traditional Belgian meals, to discover regional product makers. It can be included in the Learning agreement for 2 ECTS.

French as a foreign language

As most of the study programmes are taught in French, we recommend students to have a very good level in French; in some departments, the B1 level is required.

Therefore, in order to help the incoming students improve it, HELMo offers a French course (5ECTS) during the autumn semester. And during the spring semester, HELMo has a partnership with ISLV - University of Liège (5 ECTS).

However, the business department offers a 30 ECTS programme in English ONLY during the autumn semester.

Academic recognition: HELMo adheres to the fundamental aims of the Bologna process, and to transcribe the records obtained abroad, HELMo uses the Egracons system (<http://egracons.eu/>).

ESN Team was set up to organize activities for incoming students, to help them during their stay in Liège;

The ESN will:

Pick up students on arrival	Help students find accommodation
Advise about events at HELMo, in Liege or even in Belgium (concerts,...)	Organize sport, cultural and social activities
Do not hesitate to check our facebook page "ESN HELMo"	

Further information can be found on <https://www.helmo.be/CMS/Profils/International/EN/Students-IN.aspx>.

BUSINESS & LAW DEPARTMENT

Introduction

••• A UNIVERSITY COLLEGE ON THE MOVE

HELMo offers a high performance training including theory and practice from the start, and a wide range of business-oriented programmes.

All programmes are **3-year bachelor courses** and we also offer **a master programme**.

Bachelor in **Accounting**

Bachelor in **Insurance and Risk Management**

Bachelor in **International Business**

Bachelor in **International Cooperation**

Bachelor in **Law**

Bachelor in **Management Assistant**

Bachelor in **Marketing**

Master in **Public Administration**

Master in **Sales Management (work-study)**

Informatics & technics department

- Bachelor in Management computing (Programming)
- Bachelor in computing and systems: systems security (Cybersecurity)
- Master in Computer Systems

2 LOCATIONS

Liège - HELMo Campus Guillemins

- A campus located 5 minutes away from Guillemins station
- Conveniently located next to green and cultural areas.
- Welcomes over 3000 students.
- Gives the opportunity of sharing experiences with European and non-European students from over a hundred partner institutions.

HELMO Verviers

- Only for the bachelor in Office Management.
- A unique location in Verviers, a city 20 minutes away from Liège.
- Institute on a human scale.
- Close to the German border.
- Active relations with the German-speaking community of Belgium.

STUDY PROGRAMMES

Bachelor in Accounting

- Mastering accounting and financial mechanisms, taxation as well as IT tools
- Playing a key role in the company, taking initiatives, being dynamic and flexible
- Managing scorecards and providing advice to ensure the good management of the company

Strengths

Versatile economic study programme: courses in accounting, management, taxation, IT (reference software), law, languages, etc. Three possible graduating options: Banking & Finance, Management and Taxation. A hands-on approach to accounting professions, where students are confronted with professional realities through work, activities and work placements (business game, entrepreneurial spirit week, project fair, etc.).

Career prospects

Accountant, chartered accountant and tax consultant, middle and senior manager in any profession involving multiple economic concepts (accounting, tax, sales, IT, languages and legal services; positions in the ministries and administrations responsible for these subject matters), entrepreneur, SME founder or manager.

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economique/Bachelier-en-Comptabilite/Formation.aspx

Bachelor in Insurance and Risk Management

- Covering a multitude of risks for individuals and businesses
- Getting to know the different types of insurance contracts, procedures and products
- Combining a passion for human contact (dialogue with the client) and precision (management of codified services)

Strengths

Study programme with an emphasis on practical training, linked with professional circles. Prevention workshops (practical fire loss management exercises, road safety workshops, etc.), language trips and activities. Job shadowing work placements in the 2nd year and a 15-week work experience placement in the 3rd one.

Career prospects

Insurance graduates have access to various paid and/or statutory jobs, within the insurance distribution sector as well as in a private or public-sector company: insurance agent, insurance inspector, insurance manager in banking, real estate or other companies, consultant, sales representative, assistant Risks manager, ... They also have access to the profession of estate agent.

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economique/Bachelier-en-Assurances/Formation.aspx

Bachelor in International Business

- Working for companies directly or indirectly linked to import-export
- Mastering languages, understanding market, logistics and transport mechanisms
- Opening up to the global market as the economic activity is now European and international

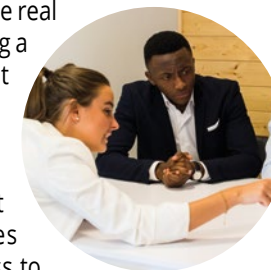

Strengths

Renowned study programme for learning languages that are essential in international trade. Trade missions abroad are organised, where Walloon-Belgian companies commission students to research the market potential for their product(s) abroad, to initiate the launch of another product or to create real business contacts. Increased mobility: completing a part of the programme or a long work placement abroad.

Career prospects

International Business graduates are in great demand for their versatility by all companies involved in international trade. They have access to different positions such as sales representatives, export sales manager, customer care manager, key accounts manager, logistics assistant, supply chain manager, ...

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economique/Bachelier-en-Commerce-exterieur/Formation.aspx

Bachelor in International Cooperation

> with Haute Ecole de la Province de Liège

- Designing and effectively managing the follow-up of development and co-operation projects
- Having good economic management skills to ensure proper use of funds
- Knowing the cultural, social, economic and environmental situation of the partner communities

Strengths

Study programme with an emphasis on: foreign languages, ethics, discovery of global cultures, management, logistics and public markets... Field instructors, immersions for a practical approach to action in social economy and international solidarity contexts, professional internships.

Career prospects

In public organisations, NGOs specialised in co-operation, international or local (provinces, municipalities...) institutions, trade unions and health funds, social economy or lifelong learning companies... Becoming a project manager, a technical collaborator, a person in charge of monitoring co-operation programmes, a development programme awareness officer.

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economie/Bachelier-en-Cooperation-internationale/Formation.aspx

Bachelor in Law

- Practising the different fields of law in various professional environments
- Being a competent paralegal in demand in a society that is increasingly a 'law consuming' one
- Being versatile: having IT, business and language skills as well

Strengths

Solid training provided by professionals. Hands-on training in applied law (practical work seminars, case studies, internships...) and is open to the professional world (visits to the European Court of Justice in Luxembourg, the European Parliament in Strasbourg, the International Criminal Court in The Hague...). Conferences and seminars (lawyers, bailiffs, insurers, bankers, legal experts...)

Career prospects

Private and non-profit sector (banks, insurance companies, fiduciaries, health insurance companies, trade unions, non-profit organisations, NGOs...), public service (European and international companies, federal and regional ministries, courts and court offices, municipal and provincial authorities, Social Services Department...), members of the Profession (collaborator in notary or bailiff offices, law firms...), self-employed workers (real estate, insurance).

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economie/Bachelier-en-Droit/Formation.aspx

Bachelor in Management Assistant

Option Languages and Management

- > HELMo Campus Guillemins
- > HELMo Verviers

- Being the right-hand person of the CEO, a pivot of the company, a high-level administrative manager
- Managing administration and communication, mastering IT tools and new technologies
- Organising company events and all internal and external relations (meetings, business trips...)

Strengths

Economic training centred around two strong areas of focus: communication, written and oral, in French and in 2 or 3 foreign languages, as well as the use of IT tools. Versatile training linked to the professional world: company visits and group assignments, events and marketing projects, multiple internships with language immersion.

Career prospects

In the top 5 of the most in-demand jobs. These graduates can work in many professions in a wide range of industries: industry, trade, banks and insurance, travel agencies, the Profession, public administrations, international organisations, non-profit organisations and NGOs...

For our regular course programme taught in French, log on to [www.helmo.be/CMS/Formations/Economie/Bachelier-Assistent\(e\)-de-Direction-\(Liege\)/Formation.aspx](http://www.helmo.be/CMS/Formations/Economie/Bachelier-Assistent(e)-de-Direction-(Liege)/Formation.aspx)

Bachelor in Marketing

- Carrying out market researches: analysing, nurturing or maintaining needs through a relevant communication
- Organising the best encounter between the customer and the product/service (pricing, presentation, distribution channels and sales techniques)
- Maintaining and expanding the position of companies on the market

Strengths

Training for developing specific skills (strategic plan, market research, statistics, advertising) and people skills (analytical skills, creativity, business sense, teamwork, psychology). Practical projects and activities: marketing day (conferences, entertainment...), new product launch simulation, web marketing, internships...

Career prospects

Depending on the size of the company or the experience acquired, the accessible positions are: buyer and chief buyer, category manager, company manager, brand manager, product manager, departmental head, consultant, sales manager, branch manager, customer care manager, key accounts manager, communication manager, (operational) marketing manager, merchandising manager, trade marketing manager, vendor...

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economique/Bachelier-en-Marketing/Formation.aspx

Master in Public Administration after a bachelor degree.

> with Haute Ecole de la Province de Liège

- Managing a public organisation: matters related to public law and public finance
- Having high-level management skills
- Supervising the modernisation processes launched within the public sector

Strengths

A unique and multidisciplinary study programme in the Liège region. An educational team made up of public managers and specialists. 3-month internship, Erasmus exchange programmes, links and partnerships with the professional world: as many assets for a vocational training, oriented towards responsibilities, versatility and autonomy.

Career prospects

Administrative, management and decision-making positions in public services (all levels of the federal state, local authorities, public administrations...), private companies in the commercial or non-commercial sector, semi-public organisations, NGOs, profit or non-profit organisations. Graduates also have access to supranational institutions.

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economique/Master-en-Gestion-publique/Formation.aspx

INFORMATICS & TECHNICS DEPARTMENT

Bachelor in Management Computing Programming

- Implementing IT solutions
- Intervening in all the stages of application creation (analysis, programming, user education...)
- Following technological developments and working in a team

Strengths

Practice-based training (labs and practical assignments) that focuses on multi-technology projects, Web software developments and business contacts. A 15-week internship to complete a concrete and consistent project.

Career prospects

Programmer-analyst, application developer, web developer, project manager, system or network administrator, database manager, IT instructor or consultant, expert, salesperson, manager. Graduates can work in small and large companies as well as in public administrations, hospitals, universities...

For our regular course programme taught in French, log on to www.helmo.be/CMS/Formations/Economique/Bachelier-en-Informatique-de-gestion/Formation.aspx

Bachelor in Computing and systems: systems security Cybersecurity

- Data and IT-systems protection with all types of organisations /companies and institutions.
- Protection against cybercrime.

Strengths

Practice-based learning (labs and practical assignment), technical versatility, know-how of high quality, ethics, society oriented

Career prospects

- System penetration: identifying vulnerabilities within an application or a configuration of a computer system;
- Analysis of compromised system: in case of successful attack, taking the actions necessary to isolate, protect, analyse and/or inform authorities;
- Prevention : the security system specialist must be on permanent watch and make her/his colleagues aware of security, and participate in the configuration/administration of the installed solutions (firewall, antivirus systems,...)

INCOMING STUDENTS

Come and study with us within the framework of the « Erasmus + » programme !

Either in French :

- You are integrated in our classes during one semester or one academic year
- Attending regular classes, seminars, taking part in hands-on projects, etc ...
- A minimum B1-level in French is compulsory to register for these programmes

Or in English :

- You are also integrated in our courses taught in English with HELMo students.
- Our English course programme is offered only during the Autumn Semester (September – January).
- Some courses and seminars are given by international guest lecturers.

Admission procedure:

Deadline for registration:

- Fall semester 1st June
- Spring semester 1st December

- www.helmo.be/CMS/Profils/International/EN/Students-IN/Erasmus.aspx
- or contact our Incoming Coordinator for HELMo Business Dpt, l.lemaire@helmo.be or Laurence Messina l.messina@helmo.be

- send students to various international projects and conferences abroad,
- welcome guest lecturers,
- develop multi-partner projects involving students and staff members from different nationalities.

PRACTICAL INFORMATION

ACADEMIC CALENDAR

* BCH = « Belgian Culture and Heritage » Activity

APPLICATION

APPLICATION DEADLINES:

> 1ST JUNE FOR THE FALL SEMESTER

> 1ST DECEMBER FOR THE SPRING SEMESTER

The **nomination** (Name + last name + study field + study period) **must be sent** by the home university to the international departmental coordinator of HELMo (see contact persons on the back cover).

After receiving the nomination, he/she will **send the Erasmus application form**. It has to be filled in and sent back to him/her.

An **acceptance letter** will be afterwards delivered (within three weeks).

HELMo **requires the Learning Agreement (LA)** before the beginning of the Erasmus stay. This has to be approved by the departmental coordinators in both institutions.

OTHER INFORMATION

1. ID, PASSPORT, VISA

It is recommended to check the website of the Belgian Diplomacy: www.diplomatie.be.

EU students need to have a valid ID or passport (check which one you need to travel to Belgium), and, depending on your nationality, home country and country of birth, a temporary stay permit.

NON EU Students need to contact the Belgian's embassy in their country, have to prove they have sufficient incomes for their stay in Belgium. They also need a copy of criminal record and a medical certificate.

2. HEALTH INSURANCE

EU students need the European health insurance card (the blue one) to be covered by the social security in Belgium.

Non EU students need to contact their home health insurance to check what kind of documents they need in Belgium in order to be covered by a social fund.

3. ACCOMMODATION

HELMo does not provide any accommodation of its own. However, the ESN will help Erasmus students find something suitable.

Accommodation for students in Liège consists usually of rooms or small flats in private houses (called « Kots ») with a private bathroom and a kitchen corner with furniture, or rooms in campus dormitories with shared bathroom and kitchen.

For further information, do not hesitate to check the following pages:
<https://www.helmo.be/CMS/Profils/International/EN/Students-IN/Pratical-information.aspx#doc>.

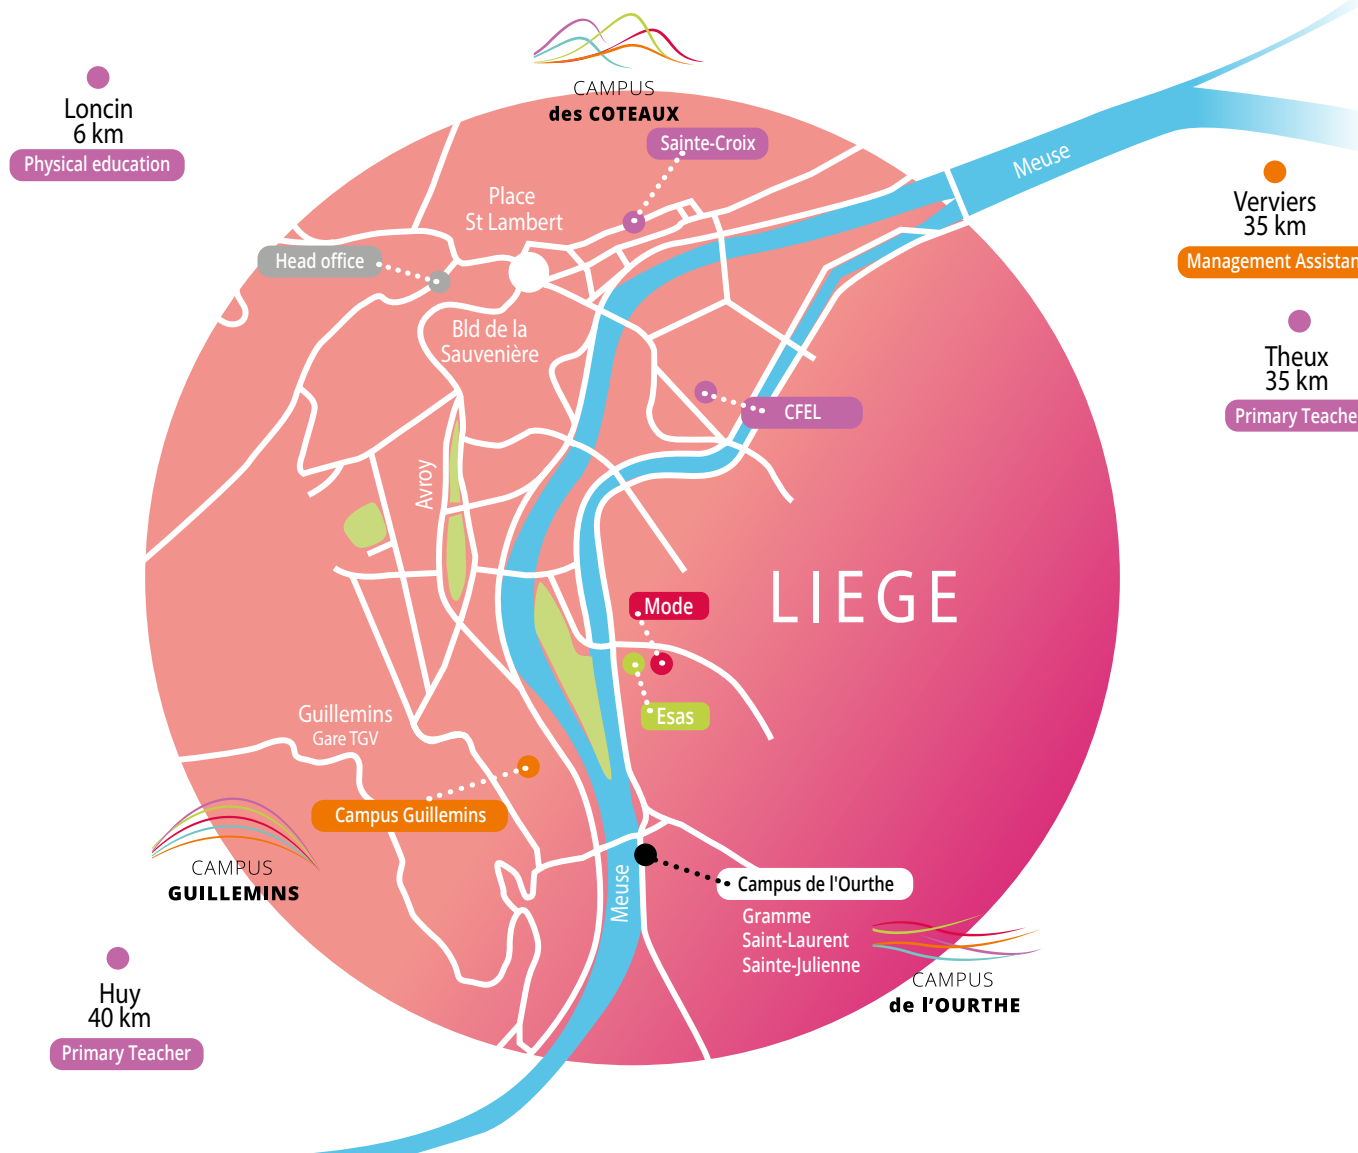

Students coming for an international week have to contact the organizer to find an accommodation for one week.
